Brief description of your opinion about the part of curriculum that impressed you very much.	Brief description of your opinion about the part of curriculum that dissatisfied you.	Write a brief note about the particular portion / lesson you want to add to the curriculum. Also mention the author/publication.	Whether you want to remove any part of the curriculum? If yes, mention the lesson/portion and the reason.	Give an outline sketch of the curriculum in your mind.	Are you satisfied with the courses offered in your curriculum? If not, give reason.	Any other suggestions.
5-13-2021 20:03:45	anatsuman jose 1@gmail.com	B.LISC.	Core Course	No	Practical sessions of the curriculum is very good.	As it is a professional course, more practical sessions should be added in curriculum. Internship is not included in the curriculum now. But its very essential. Internship Programme: Report on Internship Programme.	Artificial Intelligence, Media Literacy, Reference Tools	Canons of Library classification	Syllabus should include more practical sessions	Yes	Nil
5-13-2021 11:50:04	sudha.k@stpeterscollege.ac.in	BIO-TECHNOLOGY	Core Course, Choice Based Core Course	Yes	The syllabus of M.Sc in Biotechnology included as many relevant subjects as possible for the two years academic period. The multidisciplinary nature of the program gave students a wider opportunity for knowing	Biotechnology being an applied biology program, two years are not sufficient to master the subject. Many important Practical topics are compromised due to lack of time.	M. Sc Biotechnology program included only very basic topics of Microbiology, excluding some important topics. Topics to be included are molecular	IPR (Intellectual property Rights) portions other than 'process patenting' could be omitted from Bioprocess	I vote for a five year integrated program for these kind of applied life sciences subjects. That gives students enough time to master fundamentals, applied aspects with an industrial training. Will help students to	Answer is YES and NO. 'Yes' because Most of the courses are basically required to understand the subject. No' because program is not job or research oriented.	1. Industrial visits and training are to be added to the existing program. 2. Laboratory experiments are very costly and current
5-13-2021 17:18:09	jini.joseph@stpeterscollege.ac.in	BIO-TECHNOLOGY	Core Course	No	Biochemistry (since it covers all the basics and essentials of the paper )	Physiology portions of the paper biotechnology and physiology in the fourth semester ( since it has many repetitions that has been studied in the plus 2 and degree level)	Gene therapy of diseases	Physiology portions of the paper biotechnology and physiology in the fourth semester ( since it has many repetitions that	Molecular Biology, Bioinformatics, Microbiology, Bioprocess technology, IPR, Plant and animal technology, Biochemistry, Metabolism and enzymology, Proteomics, Gene	Yes	Syllabus should be more challenging and practical - oriented

5-13-2021 20:59:35	ligi.lambert@stpeterscollege.edu	BIO-TECHNOLOGY	Core Course, Complementary Course	Yes	Elective paper	Nothing like that.	No opinion	No	Curriculum must be revised according to the development and technology in the science world.	Yes	No
5-16-2021 22:29:43	sonaaniyan@gmail.com	BIO-TECHNOLOGY	Choice Based Core Course	No	Recombinant DNA technology	Biophysics portion in the course BT020104 Biophysics and Bioinformatics	Gene editing and its applications in detail	Biophysics portion in the course BT020104 Biophysics and Bioinformatics- Not very much relevant to Biotechnology course.	Same curriculum with addition and removal of above mentioned portions	If the above modifications are done courses offered are satisfactory	In Practical courses, experiments already done in graduate programs can be eliminated and more advanced ones can be
5-13-2021 12:00:59	abrphyton@gmail.com	BOTANY	Core Course	Yes	There is a balance between classical botany and advanced botany	Both Molecular biology and biotechnology comes in the same semester. Only after molecular biology is taught, one can effectively take biotechnology	Important bacterial, fungal and viral diseases affecting humans especially on novel corona virus, nipah etc	No	1st year on general botany and topics on cryptogams...2nd year with phanerogams, anatomy, horticulture and 3rd year with taxonomy and advanced branches	Yes	Give more importance to practical aspects of botany, especially horticulture and nursery management
5-16-2021 22:04:54	drvimalmohan81@gmail.com	BOTANY	Core Course, Complementary Course	Yes	The curriculum seems to be good	Not dissatisfied with any part	No recommendation	No	No new sketch required	Satisfied	No

5-16-2021 22:48:00	remya.gnair@stpeterscollege.ac.in	BOTANY	Core Course, Complementary Course	Yes	Curriculum is based on ugc csir examinations	No proper references given in certain subjects	More immunology related portions	Nil	Job oriented curriculum	Yes	Nil
5-16-2021 22:55:22	sinduaby@gmail.com	BOTANY	Core Course	Yes	Given importance to all branches of subject. For both theory and practicals gave equal weight age.	Order of subjects in each semester	Nil	No	It is better to study plant anatomy in second semester than 5th semester	Yes	Nil
5-17-2021 12:46:17	abrahammunda ckal21566@gmail.com	BOTANY	Core Course, Open Course	Yes	In UG program, open course offers multidisciplinary exposure and P G Programme syllabus is advanced.	Nil	Nil	Nil	Nil	Yes	Nil
5-14-2021 8:45:02	geanspc@gmail.com	CHEMISTRY	Core Course, Complementary Course, Open Course, Choice Based Core Course	No	Introduction of a brief history and development of the subject, choice of selecting a relevant core course (CBCS), incorporation of industry visit, study tour, project and computer aided practicals.	The syllabus as a whole is difficult to finish in time since new topics were introduced without reducing the existing portions. Introduction of methodology, Human rights and environment course, open course is excreting extra burden	Basics or prelims of computational chemistry	Combine the relevant topics of human rights and environment to open course and allot more time for core course. Reduce the	Most of them are mentioned above. A course should be modified with the industrial applications and modifications of subject which promote industry academia linkage can be introduced in	No, Open course and Human rights and environment course are stealing lot of time without making much impact on student wisdom. It can now be offered as a certificate course	Examinations has an important role in assessing the outcome of the curriculum. Academic calendar should be published early

5-14-2021 11:37:24	sukumaranandileesh@gmail.com	CHEMISTRY	Core Course, Complementary Course, Open Course, Choice Based Core Course	No	The open course will give an opportunity to the students of other programmes to get acquainted with the various programmes offered by other departments. The choiced based course will give an opening	The two internal examinations within the semester is a burden for students. The syllbus of each semester for the core students is very heavy for the students. Handling human rights portion by science teachers is a difficult	The concept of green chemistry must be included in detail. "New Trends in Green Chemistry" by V. K. Ahulwalia.	It would be fruitful we of we can reduce the portion if active methylene coumpounds in third sem core chemistry.	The curriculum must be fruitful for the students introducing all the important concepts to the students with out making a burden for the learners an well for the teachers. Not much things filled in a	Yes	In question papers PG portions are often asked in UG question papers. The questions are reaped in the same question papers. Essay
5-16-2021 22:07:39	teenapv16@gmail.com	CHEMISTRY	Core Course, Complementary Course, Open Course	Yes	The environmental studies introduced in all programmes	The human rights part introduced can be non evaluative or with low weightage. For a Science student only understanding is necessary. Mugging up all the portions and answering long long answers is too difficult.	Practicals such as soil analysis or water analysis which are very related to daily life can be introduced at least to a lighter level.	Research methodology can be introduced in fifth sem instead of first sem.	Can refer the above mentioned points	To a certain level.	No
5-17-2021 9:38:26	sindhuissac22@gmail.com	CHEMISTRY	Core Course, Complementary Course	Yes	1. Final result is published in time, so students get a chance to appear for entrance exams and interviews in various universities...	1. Enough time is not given to finish the semester... Required hours are not usually given... Syllabus is usually completed in a hurry burry manner 2. Interest is given only to publish the final semester result... Similar	Some topics related to mental health, counselling...health and hygeine	Open course topic for Chemistry is too tough... It has to be changed to a lighter and interesting topics like food science	1. Syllabus which can be covered neatly and correctly with in the time period. 2. Correct academic calendar at the starting of semester. 3. Timely publishing of results in all semesters.	Yes	Nil
5-17-2021 22:40:22	teenakulamgattil@gmail.com	CHEMISTRY	Core Course, Complementary Course, Open Course	Yes	Covers all relevant topics	NA	NA	No	Providing a more complete and logical framework	Yes	NA

5-13-2021 10:34:05	rekhasnair91@gmail.com	CHEMISTRY (SELF)	Core Course	Yes	Theory portions which cover almost the noval ares of Chemistry like nano, green chemistry, spectroscopy etc.	Practicals... It truly harmful to human as well as the environment.	Green assisted and nano based practicals become more beneficial.	Practical using solvents like ether, hexane etc.	Mainly i focus on the practical which are more useful to students like analytical and more instrumental studies.	Yes...	Nil
5-13-2021 12:33:17	avnireeth@gmail.com	CHEMISTRY (SELF)	Core Course	Yes	The elective courses included in the curriculum are really impressive	Organic practicals : add practical portions like estimation of organic compounds like phenol, ainline etc instead of TLC and microwave synthesis	Polymer chemistry should be included in the first 3 semesters instead of choosing it as an elective one	No	It should titled organic, inorganic, physical and theoretical chemistry	Yes	Give more emphasis on practicals
5-14-2021 16:59:53	reshmaprakash950@gmail.com	CHEMISTRY (SELF)	Core Course	No	Organic chemistry part is very good, which includes advanced level topics.	overall marks for a paper is 150.students can't score this grade within 3hrs.The revised syllabus contains topics from a particular text book.it is very difficult to find out these topics and these particular textbook	Analytical chemistry portions and application level knowledge that helps to qualify the competitive level exams	No	more practical portions and application level topics	Yes.	No
5-13-2021 10:18:55	anumolantonypalackal@gmail.com	COMMERCE	Core Course, Complementary Course	Yes	Updated curriculum	Too much in the syllabus which is hard to complete in a semester hours.	Nothing	Accounting standards problems In GST, customs law should be reduced.	-	Yes	-
